

- Hunting of wildlife other than waterfowl is allowed during prescribed seasons, except that from Oct. 15 to the close of the area's prescribed duck season non-waterfowl species may be hunted by archery methods only and only in designated areas.
- Furbearer trapping is permitted by special-use permit.
- Waterfowl hunting during the prescribed duck season is allocated by a daily morning drawing held approximately 1 1/2 hours before shooting time. A party with a maximum of four individuals may participate.
- Waterfowl may be taken by holders of a valid hunting tag only from an assigned blind or designated area. Hunters must remain in their blinds, except when retrieving dead birds, pursuing and shooting downed cripples, or hunting from a blind within a wade and shoot unit.
- Waterfowl hunting is prohibited after 1 p.m. on designated portions of the area. Goose and teal hunting is allowed under statewide regulations during those portions of the prescribed seasons that occur outside of the prescribed duck hunting season. Light goose hunting is allowed under statewide regulations during the prescribed conservation order for light geese.
- Decoys and portable blinds are permitted but must be removed daily. Blinds may be constructed on-site, but only from willows and non-woody vegetation.
- Non-hunters are prohibited within the shooting areas during the waterfowl season, unless they are members of and remain with a party legally authorized to use the area.

Note: Waterfowl hunting success on this area will depend on hunters following the regulations and respecting the rights of their fellow hunters. Identify ducks before shooting and do not interfere with or spoil the hunting of others by "skyblasting" at birds that are out of range.

B. K. Leach Memorial Conservation Area consists of three tracts totaling 4,307 acres. The main tract is 3 miles south of Elsberry on Highway 79 then 3 miles east on Route M.
